Academic Year 2027

Qualifications for Application and Selection Process

(English-taught programs)

○	Comprehensive Selection	SAT/ACT Method and IB Method	P. 1
○	Comprehensive Selection	English-taught Undergraduate Program I (Tentative name)	
		(Department of Geography and Tourism Science)	P. 3
		(Department of Civil and Environmental Engineering)	P. 6
		(Department of Applied Chemistry for Environment)	P. 9
○	Special Selection	Entrance Examination for International Students (Selection Based on the Nationwide University Entrance Examination Score)	P. 12
○	Special Selection	Entrance Examination for Fall Semester Entrance	P. 15

Academic Year 2027 Comprehensive Selection (SAT/ACT Method and IB Method)
(Qualifications for Application and Selection Process)

Faculty of Science	
Department of Biological Sciences	Qualifications for Application <SAT/ACT Method> Applicants must meet one of the criteria listed in 1. (a) – (e), and satisfy the requirements of 2 and 3. 1. Applicants who meet any of the following (a) to (e) (a) Applicants who have graduated (or are expected to graduate by March 2027) from a senior high school located in Japan. (b) Applicants who have completed (or are expected to complete by March 2027) a course of study at an overseas Japanese school officially accredited or designated by the Minister of Education, Culture, Sports, Science and Technology of Japan as providing courses comparable to or equivalent to high school education. (c) Applicants who have completed (or are expected to complete by March 2027) a course of study at a foreign school located in Japan that is accredited under the educational system of the given foreign country as providing courses comparable to high school education and is designated by the Minister of Education, Culture, Sports, Science and Technology of Japan (limited to those who have completed a 12-year course of study of the given foreign country). (d) Applicants who have completed (or are expected to complete by March 2027) a 12-year course of study established by an educational institution whose activities are accredited by an international accreditation organization (WASC, ACSI, CIS, NEASC, Cognia, or COBIS) designated by the Minister of Education, Culture, Sports, Science and Technology of Japan. This applies only to those who have Japanese nationality, permanent residency in Japan, or equivalent status if such school education was/is being provided overseas. (e) Applicants with Japanese nationality, permanent residency in Japan, or equivalent status who have completed (or are expected to complete by March 2027) a 12-year course of study at an overseas educational institution. 2. Applicants who have taken the SAT Reasoning Test or ACT (+ Optional Writing Test) administered on or after April 1, 2025 3. Applicants who have taken the TOEFL iBT or IELTS Academic Module administered on or after April 1, 2025 [Note] Scores from any tests taken at home are not accepted.

<IB Method>
Applicants must be those who have obtained (or are expected to obtain by March 31, 2027) the International Baccalaureate Diploma awarded by the International Baccalaureate Organization. Mathematics and two subjects from chemistry, biology, and physics must be included in the six subject groups (any level is acceptable).
This method is applicable only to those with Japanese nationality, permanent residency in Japan, or equivalent status if the diploma was obtained or will be obtained overseas.

Selection Process

1. Selection method for the first-stage selection

The first-stage selection is conducted based on the following documents.

<SAT/ACT Method>
(1) SAT Reasoning Test or ACT (+ Optional Writing Test) score
(2) TOEFL iBT or IELTS score
(3) Essay form

<IB Method>
(1) International Baccalaureate final examination score (including prospective score)
(2) Essay form

2. Selection method for the second-stage selection (common to both the SAT/ACT Method and IB Method)

The second-stage selection is conducted based on an individual interview examination (including oral examination) in English or Japanese.

Academic Year 2027 Comprehensive Selection (English-taught Undergraduate Program I)
(Qualifications for Application and Selection Process) (Tentative name)

Faculty of Urban Environmental Sciences	
Department of Geography Department of Tourism Science	Qualifications for Application Applicants must meet all of the following criteria: 1 to 3. 1. Whether you are eligible for university admission Applicants who meet any of the following (a) to (g) (a) Applicants who have graduated (or are expected to graduate by March 31, 2027) from a senior high school located in Japan (including secondary schools and high school sections of schools for special needs education). (b) Applicants who have completed 12 years of formal school education overseas (including those who are expected to complete by March 31, 2027). (c) Applicants equivalent to (b) above. [Note 1] (d) Applicants who have completed or are expected to complete 12 years of school education at an educational institution accredited by an international accreditation organization (WASC, CIS, ACSI, NEASC, Cognia or COBIS) designated by the Minister of Education, Culture, Sports, Science and Technology (including those who are expected to complete by March 31, 2027). (e) Applicants who have obtained or are expected to obtain one of the following qualifications by March 31, 2027. ⅰ. Applicants who have obtained or are expected to obtain the International Baccalaureate Diploma (from the International Baccalaureate Organization, a corporate body funded in accordance with the Swiss Civil Code). ⅱ. Applicants who have obtained or are expected to obtain the Abitur certificate (recognized by each state in Germany as a university admission qualification). ⅲ. Applicants who have obtained or are expected to obtain the Baccalauréat diploma (a university admission qualification in France). ⅳ. Applicants who have obtained or are expected to obtain either the General Certificate of Education Advanced Level or the International General Certificate of Education Advanced Level (a university admission qualification in the United Kingdom of Great Britain and Northern Ireland) with at least three A-level subjects or two A-level and two AS-level subjects (total of four subjects). ⅴ. Applicants who have obtained or are expected to obtain the European Baccalaureate diploma (a university admission qualification in the member states of the European Union). (f) Applicants who have completed or are expected to complete a course of study at an educational institution in Japan designated by the Minister of Education, Culture, Sports, Science and Technology equivalent to a foreign high school education by March 31, 2027.

(g) Applicants who have completed or are expected to complete a course at an overseas educational institution accredited as equivalent to a high school (List of Overseas Educational Institutions Accredited by the Minister of Education, Culture, Sports, Science and Technology with an upper secondary school section) by March 31, 2027.

2. Whether external English proficiency test scores are required or relevant

Applicants who have taken the TOEFL iBT (Test of English as a Foreign Language) or IELTS (International English Language Testing System) Academic Module administered on or after April 1, 2025.

[Note] Scores from any tests taken at home are not accepted.

3. Whether the applicant has obtained a score on the University Entrance Qualification Examination or the Unified University Admission Examination

Applicants who meet any of the following (a) to (c)

(a) Applicants who have taken the SAT Reasoning Test or ACT (+ Optional Writing Test) administered on or after April 1, 2025.

(b) Applicants who have obtained or are expected to obtain the International Baccalaureate Diploma from the International Baccalaureate Organization. Mathematics and two subjects from geography, chemistry, physics, and environmental systems and societies must be included in the six subject groups (any level is acceptable).

(c) Applicants who have taken the University Entrance Qualification Examination or Unified University Admission Examination in a country other than Japan in or after 2023, and who can submit the transcript and an official explanation document on the examination. The examination must include subjects equivalent to chemistry, physics, and earth science, in addition to mathematics.

For those who fall under (c) above, please refer to the “List of Recognized University Entrance Qualification Examinations and Unified University Admission Examinations for Admission to Tokyo Metropolitan University” available on our website. If you intend to apply using a qualification examination that is not included in the list, please be sure to contact the Admissions Division, Administrative Affairs Department of Tokyo Metropolitan University before submitting your application.

[Note 1]

“Applicants equivalent to (b)” refers to those who fall under one of the following:

(a) Applicants who have passed a national certification examination (including one corresponding to it) in a foreign country that is officially approved as an assessment of academic ability

equivalent to that of those who have completed 12 years of formal school education in the given country, and who will have reached the age of 18 by March 31, 2027.

(b) Applicants who have completed a course of study corresponding to secondary school education in a foreign country where formal school education is less than 12 years (including those who have passed a national certification examination officially approved as an assessment of academic ability equivalent to the former or one corresponding to it), and who have completed the Japanese university preparatory course at a school designated by the Japanese Minister of Education, Culture, Sports, Science and Technology (including those who are expected to complete by March 31, 2027).

(c) Applicants who have completed a course of study corresponding to secondary school education in a foreign country that is separately designated by the Japanese Minister of Education, Culture, Sports, Science and Technology (limited to those who are deemed to have completed 11 or more years of school education under the educational system of the given foreign country and who meet the requirements set by the Japanese Minister of Education, Culture, Sports, Science and Technology) (including those who are expected to complete by March 31, 2027).

Selection Process

1. Selection method for the first-stage selection

The first-stage selection is conducted based on the following documents.

(1) a. SAT Reasoning Test or ACT (+ Optional Writing Test) score
b. International Baccalaureate final examination score (including prospective score)
c. University Entrance Qualification Examination or Nationwide University Entrance Examination score

(2) TOEFL iBT or IELTS score

(3) Essay form (in English or Japanese)

2. Selection method for the second-stage selection

The second-stage selection is conducted based on a short essay and an individual interview examination (including oral examination) in English or Japanese.

Department of Civil and Environmental Engineering	Qualifications for Application Applicants must meet all of the following criteria: 1 to 3. 1. Whether you are eligible for university admission Applicants who meet any of the following (a) to (g) (a) Applicants who have graduated (or are expected to graduate by March 31, 2027) from a senior high school located in Japan (including secondary schools and high school sections of schools for special needs education). (b) Applicants who have completed 12 years of formal school b education overseas (including those who are expected to complete by March 31, 2027). (c) Applicants equivalent to (b) above. [Note 1] (d) Applicants who have completed or are expected to complete 12 years of school education at an educational institution accredited by an international accreditation organization (WASC, CIS, ACSI, NEASC, Cognia or COBIS) designated by the Minister of Education, Culture, Sports, Science and Technology (including those who are expected to complete by March 31, 2027). (e) Applicants who have obtained or are expected to obtain one of the following qualifications by March 31, 2027. ⅰ. Applicants who have obtained or are expected to obtain the International Baccalaureate Diploma (from the International Baccalaureate Organization, a corporate body funded in accordance with the Swiss Civil Code). ⅱ. Applicants who have obtained or are expected to obtain the Abitur certificate (recognized by each state in Germany as a university admission qualification). ⅲ. Applicants who have obtained or are expected to obtain the Baccalauréat diploma (a university admission qualification in France). ⅳ. Applicants who have obtained or are expected to obtain either the General Certificate of Education Advanced Level or the International General Certificate of Education Advanced Level (a university admission qualification in the United Kingdom of Great Britain and Northern Ireland) with at least three A-level subjects or two A-level and two AS-level subjects (total of four subjects). ⅴ. Applicants who have obtained or are expected to obtain the European Baccalaureate diploma (a university admission qualification in the member states of the European Union). (f) Applicants who have completed or are expected to complete a course of study at an educational institution in Japan designated by the Minister of Education, Culture, Sports,

	Science and Technology equivalent to a foreign high school education by March 31, 2027. (g) Applicants who have completed or are expected to complete a course at an overseas educational institution accredited as equivalent to a high school (List of Overseas Educational Institutions Accredited by the Minister of Education, Culture, Sports, Science and Technology with an upper secondary school section) by March 31, 2027. 2. Whether external English proficiency test scores are required or relevant Applicants who have taken the TOEFL iBT (Test of English as a Foreign Language) or IELTS (International English Language Testing System) Academic Module administered on or after April 1, 2025. [Note] Scores from any tests taken at home are not accepted. 3. Whether the applicant has obtained a score on the University Entrance Qualification Examination or the Unified University Admission Examination Applicants who meet any of the following (a) to (c) (a) Applicants who have taken the SAT Reasoning Test or ACT (+ Optional Writing Test) administered on or after April 1, 2025. (b) Applicants who have obtained or are expected to obtain the International Baccalaureate Diploma from the International Baccalaureate Organization. Mathematics and physics must be included in the six subject groups (any level is acceptable). (c) Applicants who have taken the University Entrance Qualification Examination or Unified University Admission Examination in a country other than Japan in or after 2025, and who can submit the transcript and an official explanation document on the examination. The examination must include subjects equivalent to mathematics and physics. For those who fall under (c) above, please refer to the “List of Recognized University Entrance Qualification Examinations and Unified University Admission Examinations for Admission to Tokyo Metropolitan University” available on our website. If you intend to apply using a qualification examination that is not included in the list, please be sure to contact the Admissions Division, Administrative Affairs Department of Tokyo Metropolitan University before submitting your application. Selection Process

1. Selection method for the first-stage selection

The first-stage selection is conducted based on the following documents.

(1) a. SAT Reasoning Test or ACT (+ Optional Writing Test) score
b. International Baccalaureate final examination score (including prospective score)
c. University Entrance Qualification Examination or Nationwide University Entrance Examination score

(2) TOEFL iBT or IELTS score

(3) Essay form (in English)

2. Selection method for the second-stage selection

The second-stage selection is conducted based on a short essay and an individual interview examination (including oral examination) in English.

Academic Year 2027 Special Selection (Entrance Examination for International Students)
(Selection Based on the Nationwide University Entrance Examination Score)
(Qualifications for Application and Selection Process)

Qualifications for Application	
Department of Biological Sciences	Foreign national applicants must meet one of the criteria listed in 1 and one listed in 2, and satisfy the requirements of 3. 1. Whether you are eligible for university admission Applicants who meet any of the following (a) to (e) (a) Applicants who have completed 12 years of formal school education overseas (including those who are expected to complete by March 31, 2027). [Note 1] (b) Applicants equivalent to (a) above. [Note 2] (c) Applicants who have completed 12 years of school education overseas at an educational institution accredited by an international accreditation organization (WASC, CIS, ACSI, NEASC, Cognia or COBIS) designated by the Minister of Education, Culture, Sports, Science and Technology (including those who are expected to complete by March 31, 2027). [Note 1] (d) Applicants who have obtained one of the following qualifications overseas (for the International Baccalaureate, applicants who are expected to obtain it by March 31, 2027 are included.) ⅰ. Applicants who have obtained (or are expected to obtain by March 31, 2027) the International Baccalaureate Diploma (from the International Baccalaureate Organization, a corporate body funded in accordance with the Swiss Civil Code). ⅱ. Applicants who have obtained the Abitur certificate (recognized by each state in Germany as a university admission qualification). ⅲ. Applicants who have obtained the Baccalauréat diploma (a university admission qualification in France). ⅳ. Applicants who have obtained the General Certificate of Education Advanced Level or the International General Certificate of Education Advanced Level (a university admission qualification in the United Kingdom of Great Britain and Northern Ireland) with at least three A-level subjects or two A-level and two AS-level subjects (total of four subjects). ⅴ. Applicants who have obtained the European Baccalaureate diploma (a university admission qualification in the member states of the European Union). (e) Applicants who are recognized by the University as having acquired the academic ability equivalent to (a) - (d) above and who will have reached the age of 18 by March 31, 2027. 2. Whether the applicant has obtained a score on the University Entrance Qualification Examination or the Unified University Admission Examination Applicants who meet any of the following (a) to (c) (a) Applicants who have taken the SAT Reasoning Test or ACT (+ Optional Writing Test) administered on or after April 1, 2025.

(b) Applicants who have obtained or are expected to obtain the International Baccalaureate Diploma from the International Baccalaureate Organization. Mathematics and two subjects from chemistry, biology, and physics must be included in the six subject groups (any level is acceptable).

(c) Applicants who have taken the University Entrance Qualification Examination or Unified University Admission Examination in a country other than Japan in or after 2023, and who can submit the transcript and an official explanation document on the examination. The examination must include subjects equivalent to chemistry, biology, and physics, in addition to mathematics.

For those who fall under (c) above, please refer to the "List of Recognized University Entrance Qualification Examinations and Unified University Admission Examinations for Admission to Tokyo Metropolitan University" available on our website. If you intend to apply using a qualification examination that is not included in the list, please be sure to contact the Admissions Division, Administrative Affairs Department of Tokyo Metropolitan University before submitting your application.

3. Whether external English proficiency test scores are required or relevant

Applicants who have taken the TOEFL iBT (Test of English as a Foreign Language) or IELTS (International English Language Testing System) Academic Module administered on or after April 1, 2025.
[Note] Scores from any tests taken at home are not accepted.

[Note 1]

For applicants who have attended junior high school, senior high school, or a secondary school in Japan (*1), the total duration of attendance at such schools must not exceed three years, and the 12th year of school education must be completed at a school overseas (*2).

*1: This includes schools located overseas that provide school education in accordance with the Japanese School Education Act.

*2: "A school overseas" refers to one located overseas that provides school education in accordance with the formal education system of the given foreign country or is accredited by an international accreditation organization.

[Note 2]

"Applicants equivalent to (b)" refers to those who fall under one of the following:

(a) Applicants who have passed a national certification examination (including one corresponding to it) in a foreign country that is officially approved as an assessment of academic ability equivalent to that of those who have completed 12 years of formal school

education in the given country, and who will have reached the age of 18 by March 31, 2027.

(b) Applicants who have completed a course of study corresponding to secondary school education in a foreign country where formal school education is less than 12 years (including those who have passed a national certification examination officially approved as an assessment of academic ability equivalent to the former or one corresponding to it), and who have completed the Japanese university preparatory course at a school designated by the Japanese Minister of Education, Culture, Sports, Science and Technology (including those who are expected to complete by March 31, 2027).

(c) Applicants who have completed a course of study corresponding to secondary school education in a foreign country that is separately designated by the Japanese Minister of Education, Culture, Sports, Science and Technology (limited to those who are deemed to have completed 11 or more years of school education under the educational system of the given foreign country and who meet the requirements set by the Japanese Minister of Education, Culture, Sports, Science and Technology) (including those who are expected to complete by March 31, 2027).

Selection Process

1. Selection method for the first-stage selection

The first-stage selection is conducted based on the following documents.

(1) a. SAT Reasoning Test or ACT (+ Optional Writing Test) score
b. International Baccalaureate final examination score (including prospective score)
c. University Entrance Qualification Examination or Nationwide University Entrance Examination score

(2) TOEFL iBT or IELTS score

(3) Essay form

2. Selection method for the second-stage selection

The second-stage selection is conducted based on an individual interview examination (including oral examination) in English.

The academic year 2027 for Special Selection (Entrance Examination for International Students) (Selection Based on the Nationwide University Entrance Examination Score) is scheduled as follows.

◯Application period: Mid-August 2026 – Late August 2026
◯Announcement of the first-stage screening results: Mid-September 2026
◯Second-stage selection: Mid-October 2026
◯Announcement of successful applicants: Early November 2026

Academic Year 2027 Special Selection (Entrance Examination for Fall Semester Entrance)
(Qualifications for Application and Selection Process)

Faculty of Science	
Department of Biological Sciences	Qualifications for Application Applicants must meet all of the following criteria: 1 to 3. 1. Whether you are eligible for university admission Applicants who meet any of the following (a) to (e) (a) Applicants who have completed or are expected to complete 12 years of formal school education between April 1, 2027, and September 30, 2027. (Applicants who have completed or are expected to complete 12 or more years of formal school education outside Japan between April 1, 2027, and September 30, 2027.) (b) Applicants who have completed or are expected to complete 12 years of school education at an educational institution accredited by an international accreditation organization (WASC, CIS, ACSI, NEASC, Cognia or COBIS) designated by the Minister of Education, Culture, Sports, Science and Technology between April 1, 2027, and September 30, 2027. (c) Applicants who have obtained or are expected to obtain one of the following qualifications between April 1, 2027, and September 30, 2027. ⅰ. Applicants who have obtained or are expected to obtain the International Baccalaureate Diploma (from the International Baccalaureate Organization, a corporate body funded in accordance with the Swiss Civil Code). ⅱ. Applicants who have obtained or are expected to obtain the Abitur certificate (recognized by each state in Germany as a university admission qualification). ⅲ. Applicants who have obtained or are expected to obtain the Baccalauréat diploma (a university admission qualification in France). ⅳ. Applicants who have obtained or are expected to obtain either the General Certificate of Education Advanced Level or the International General Certificate of Education Advanced Level (a university admission qualification in the United Kingdom of Great Britain and Northern Ireland) with at least three A-level subjects or two A-level and two AS-level subjects (total of four subjects). ⅴ. Applicants who have obtained or are expected to obtain the European Baccalaureate diploma (a university admission qualification in the member states of the European Union). (d) Applicants who have completed or are expected to complete a course of study at an educational institution in Japan designated by the Minister of Education, Culture, Sports, Science and Technology equivalent to a foreign high school education between April 1,

	2027, and September 30, 2027. (e) Applicants who have completed or are expected to complete a course at an overseas educational institution accredited as equivalent to a high school (List of Overseas Educational Institutions Accredited by the Minister of Education, Culture, Sports, Science and Technology with an upper secondary school section) between April 1, 2027, and September 30, 2027. 2. Whether external English proficiency test scores are required or relevant Applicants who have taken the TOEFL iBT (Test of English as a Foreign Language) or IELTS (International English Language Testing System) Academic Module administered on or after October 1, 2025. [Note] Scores from any tests taken at home are not accepted. 3. Whether the applicant has obtained a score on the University Entrance Qualification Examination or the Unified University Admission Examination Applicants who meet any of the following (a) to (c) (a) Applicants who have taken the SAT Reasoning Test or ACT (+ Optional Writing Test) administered on or after October 1, 2025. (b) Applicants who have obtained or are expected to obtain the International Baccalaureate Diploma from the International Baccalaureate Organization. Mathematics and two subjects from chemistry, biology, and physics must be included in the six subject groups (any level is acceptable). (c) Applicants who have taken the University Entrance Qualification Examination or Unified University Admission Examination in a country other than Japan on or after October 1, 2025, and who can submit the transcript and an official explanation document on the examination. The examination must include subjects equivalent to chemistry, biology, and physics, in addition to mathematics. For those who fall under (c) above, please refer to the “List of Recognized University Entrance Qualification Examinations and Unified University Admission Examinations for Admission to Tokyo Metropolitan University” available on our website. If you intend to apply using a qualification examination that is not included in the list, please be sure to contact the Admissions Division, Administrative Affairs Department of Tokyo Metropolitan University before submitting your application. Selection Process 1. Selection method for the first-stage selection The first-stage selection is conducted based on the following documents.

Academic Year 2027 Special Selection (Entrance Examination for Fall Semester Entrance)
(Qualifications for Application and Selection Process)

	(1) a. SAT Reasoning Test or ACT (+ Optional Writing Test) score b. International Baccalaureate final examination score (including prospective score) c.
