

Academic Year 2028

Qualifications for Application and Selection Process

(English-taught programs)

【Spring Semester】

- Comprehensive Selection SAT/ACT Method and IB Method
(Department of Biological Sciences) P. 1
- Comprehensive Selection Entrance Examination for T-GLIPs I
(Department of Geography) P. 3
(Department of Civil and Environmental Engineering) P. 6
(Department of Applied Chemistry for Environment) P. 9
(Department of Tourism Science) P. 11
- Comprehensive Selection Entrance Examination for GLiDe Global
(Department of Global Innovation and Development) (planned) P. 16
- Special Selection Entrance Examination for International Students
(Selection Based on the Nationwide University Entrance Examination Score)
(Department of Biological Sciences) P. 18

【Fall Semester】

- Special Selection Entrance Examination for Fall Semester Entrance
(Department of Biological Sciences) P. 21
- Special Selection Entrance Examination for Fall Semester Entrance
(GLiDe Global)
(Department of Global Innovation and Development) (planned) P. 24
- Special Selection Entrance Examination for Fall Semester Entrance
(T-GLIPs)
(Department of Geography) P. 29
(Department of Civil and Environmental Engineering) P. 32
(Department of Applied Chemistry for Environment) P. 35
(Department of Tourism Science) P. 37

Academic Year 2028 Comprehensive Selection (SAT/ACT Method and IB Method)
(Qualifications for Application and Selection Process)

Faculty of Science	
Department of Biological Sciences	Qualifications for Application <SAT/ACT Method> Applicants must meet one of the criteria listed in 1. (a) – (e) and satisfy the requirements of 2 and 3. 1. Applicants who meet any of the following (a) to (e) (a) Applicants who have graduated (or are expected to graduate by March 2028) from a senior high school located in Japan. (b) Applicants who have completed (or are expected to complete by March 2028) a course of study at an overseas Japanese school officially accredited or designated by the Minister of Education, Culture, Sports, Science and Technology of Japan as providing courses comparable to or equivalent to high school education. (c) Applicants who have completed (or are expected to complete by March 2028) a course of study at a foreign school located in Japan that is accredited under the educational system of the given foreign country as providing courses comparable to high school education and is designated by the Minister of Education, Culture, Sports, Science and Technology of Japan (limited to those who have completed a 12-year course of study of the given foreign country). (d) Applicants who have completed or are expected to complete by March, 2028, a 12-year course of study established by an educational institution whose activities are accredited by an international accreditation organization (WASC, ACSI, CIS, NEASC, Cognia, or COBIS) designated by the Minister of Education, Culture, Sports, Science and Technology of Japan. This applies only to those who have Japanese nationality, permanent residency in Japan, or equivalent status if such school education was/is being provided overseas. (e) Applicants with Japanese nationality, permanent residency in Japan, or equivalent status who have completed (or are expected to complete by March 2028) a 12-year course of study at an overseas educational institution. 2. Applicants who have taken the SAT Reasoning Test or ACT (+ Optional Writing Test) administered on or after April 1, 2026 3. Applicants who have taken the TOEFL iBT or IELTS Academic Test administered on or after April 1, 2026 [Note] Scores from any tests taken at home are not accepted.

Academic Year 2028 Comprehensive Selection (SAT/ACT Method and IB Method)
(Qualifications for Application and Selection Process)

	<IB Method> 1. Applicants must be those who have obtained (or are expected to obtain by March 31, 2028) the International Baccalaureate Diploma awarded by the International Baccalaureate Organization. Mathematics and two subjects from chemistry, biology, and physics must be included in the six subject groups (any level is acceptable). This method is applicable only to those with Japanese nationality, permanent residency in Japan, or equivalent status if the diploma was obtained or will be obtained overseas. 2. Applicants who have taken the TOEFL iBT or IELTS Academic Test administered on or after April 1, 2026 [Note] Scores from any tests taken at home are not accepted. Selection Process 1. Selection method for the first-stage selection The first-stage selection is conducted based on the following documents. <SAT/ACT Method> (1) SAT Reasoning Test or ACT (+ Optional Writing Test) score (2) TOEFL iBT or IELTS score (3) Essay form <IB Method> (1) International Baccalaureate final examination score (including prospective score) (2) Essay form 2. Selection method for the second-stage selection (common to both the SAT/ACT Method and IB Method) The second-stage selection is conducted based on an individual interview examination (including oral examination) <u>in English or Japanese.</u>

(c) Applicants who have completed a course of study corresponding to secondary school education in a foreign country that is separately designated by the Minister of Education, Culture, Sports, Science and Technology of Japan (limited to those who are deemed to have completed 11 or more years of school under the educational system of the given foreign country and who meet the requirements set by the Minister of Education, Culture, Sports, Science and Technology of Japan) by March 31, 2028.

Selection Process

1. Selection method for the first-stage selection

The first-stage selection is conducted based on the following documents:

(1) One of the following scores:

- a. SAT Reasoning Test or ACT (+ Optional Writing Test) score
- b. International Baccalaureate final examination score (including predicted score)
- c. University Entrance Qualification Examination or Unified University Admission Examination score

(2) English language proficiency test score

(3) Essay Form (in English)

2. Selection method for the second-stage selection

The second-stage selection consists of an online interview examination (including an oral examination).

The interview includes oral questions designed to assess logical thinking ability and fundamental mathematical competence.

The language used throughout the selection process is English.

Schedule (Planned)

Please note that the schedule is subject to change. Applicants must refer to the Application Guidelines for the latest information.

- Application Period: Early September 2027
- Announcement of First-Stage Selection Results: Late September 2027
- Second-Stage Selection: Late October 2027
- Announcement of Successful Applicants: Mid-December 2027

Academic Year 2028 Special Selection (Entrance Examination for International Students)
(Selection Based on the Nationwide University Entrance Examination Score)
(Qualifications for Application and Selection Process)

Qualifications for Application	
Department of Biological Sciences	Foreign national applicants must meet one of the criteria listed in 1 and one listed in 2 and satisfy the requirements of 3. 1. (a) Applicants who have completed 12 years of formal school education overseas (including those who are expected to complete by March 31, 2028) [Note 1] or those with an equivalent status. [Note 2] (b) Applicants who have completed 12 years of school education overseas at an educational institution accredited by an international accreditation organization (WASC, CIS, ACSI, NEASC, Cognia or COBIS) designated by the Minister of Education, Culture, Sports, Science and Technology (including those who are expected to complete by March 31, 2028). [Note 1] (c) Applicants who have obtained one of the following qualifications overseas (for the International Baccalaureate, applicants who are expected to obtain it by March 31, 2028 are included.) i. Applicants who have obtained (or are expected to obtain by March 31, 2028) the International Baccalaureate Diploma (from the International Baccalaureate Organization, a corporate body funded in accordance with the Swiss Civil Code). ii. Applicants who have obtained the Abitur certificate (recognized by each state in Germany as a university admission qualification). iii. Applicants who have obtained the Baccalauréat diploma (a university admission qualification in France). iv. Applicants who have obtained the General Certificate of Education Advanced Level or the International General Certificate of Education Advanced Level (a university admission qualification in the United Kingdom of Great Britain and Northern Ireland) with at least three A-level subjects or two A-level and two AS-level subjects (total of four subjects). v. Applicants who have obtained the European Baccalaureate diploma (a university admission qualification in the member states of the European Union). (d) Applicants who are recognized by the University as having acquired the academic ability equivalent to (a) - (c) above and who will have reached the age of 18 by March 31, 2028. 2. (a) Applicants who have taken the SAT Reasoning Test or ACT (+ Optional Writing Test) administered on or after April 1, 2026. (b) Applicants who have obtained or are expected to obtain the International Baccalaureate Diploma from the International Baccalaureate Organization. Mathematics and two subjects from chemistry, biology, and physics must be included in the six subject groups (any level is acceptable). (c) Applicants who have taken the University Entrance Qualification

Academic Year 2028 Special Selection (Entrance Examination for International Students)
(Selection Based on the Nationwide University Entrance Examination Score)
(Qualifications for Application and Selection Process)

	Examination or Unified University Admission Examination in a country other than Japan in or after 2023, and who can submit the transcript and an official explanation document on the examination. The examination must include subjects equivalent to chemistry, biology, and physics, in addition to mathematics. For those who fall under (c) above, please refer to the “List of Recognized University Entrance Qualification Examinations and Unified University Admission Examinations for Admission to Tokyo Metropolitan University” available on our website. If you intend to apply using a qualification examination that is not included in the list, please be sure to contact the Admissions Division, Administrative Affairs Department of Tokyo Metropolitan University before submitting your application. 3. Applicants who have taken the TOEFL iBT (Test of English as a Foreign Language) or IELTS (International English Language Testing System) Academic Test administered on or after April 1, 2026. [Note] Scores from any tests taken at home are not accepted. [Note 1] For applicants who have attended junior high school, senior high school, or a secondary school in Japan (*1), the total duration of attendance at such schools must not exceed three years, and the 12th year of school education must be completed at a school overseas (*2). *1: This includes schools located overseas that provide school education in accordance with the Japanese School Education Act. *2: “A school overseas” refers to one located overseas that provides school education in accordance with the formal education system of the given foreign country or is accredited by an international accreditation organization. [Note 2] Equivalent applicants are those who fall under any of the following categories: (a) Applicants who have passed a national certification examination (including one corresponding to it) in a foreign country that is officially approved as an assessment of academic ability equivalent to that of those who have completed 12 years of formal school education in the given country, and who will have reached the age of 18 by March 31, 2028. (b) Applicants who have completed a course of study corresponding to secondary school education in a foreign country where formal school education is less than 12 years (including those who have passed a national certification examination officially approved as an assessment of academic ability equivalent to the former or one corresponding to it), and who have completed the Japanese university
